EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney of record, Tom Brown, on June 22, 2006.

The application has been amended as follows:

Claim 1: An inspection apparatus for inspecting a circuit wiring of a circuit board, said inspection apparatus comprising: a conductive member disposed on one of the surfaces of said circuit board and to be supplied with an inspection signal; means for supplying the inspection signal to said conductive member; a plurality of cells disposed on the other surface of said circuit board; ~~and~~ means for acquiring each signal appearing at said cells in response to said inspection signal applied to said conductive member; and means for analyzing the circuit wiring by measuring the capacitance between the conductive member and the plurality of cells.

Claim 9: An inspection method for inspecting a circuit wiring of a circuit board, said inspection method comprising the steps of: disposing a conductive member on one of the surfaces of said circuit board, said conductive member being supplied with an inspection signal; disposing a plurality of cells on the other surface of said circuit board; supplying the inspection signal to said conductive member; ~~and~~ acquiring each signal appearing at said cells in response to said

inspection signal applied to said conductive member; and measuring the capacitance of the acquired signals to determine a condition of the circuit wiring.

Cancel withdrawn claims 10-16.

2. The following is an examiner's statement of reasons for allowance: the claims are considered to be allowable due to the inclusion of limitations: "and means for analyzing the circuit wiring by measuring the capacitance between the conductive member and the plurality of cells" in claim 1; and "and measuring the capacitance of the acquired signals to determine a condition of the circuit wiring" in claim 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
